

# 2020 Greenhealth Partner for Change Award Metrics Resource

## Chemicals

- % Green spend on 5 categories of cleaning chemicals
- % Spend on healthy interiors
- % Spend on safer hand hygiene

## Climate

- Total renewable energy as a % of total energy use
- % Green fleet\*
- % Change in greenhouse gas emissions from baseline year\*

## Energy

- Energy use intensity (EUI) in kBtus per square foot
- % Change in EUI from baseline year
- ENERGY STAR score
- % Offsite/purchased renewable energy
- % Onsite renewable energy

## Food

- % Change in meat use from baseline
- % Change in greenhouse gas emissions from meat and poultry
- % Sustainably produced meat and poultry (by weight)
- % Local food and beverage spend as a % of total spend
- % Sustainable food and beverage spend as a % of total spend
- % Spend on healthier beverages as a % of total beverage spend

## Greening the OR

- % of OR kit types reviewed
- Lbs reprocessed devices per OR procedure
- % of OR kits in reusable sterilization containers
- % of ORs with HVAC setback
- % Change in greenhouse gas emissions from anesthetic gases from baseline

## Waste

- % Recycling as a percent of total
- % RMW as a percent of total
- Tons of RMW per OR
- Total waste lbs per patient day
- Total waste tons per OR
- % C&D waste recycled

## Water

- Water use intensity in gallons per square foot
- % Change in water use from baseline year
- Water use in gallons per cleanable square foot
- Indoor water use in gallons per square foot
- Water use in gallons per full-time employee (FTE)

\*This metric is unscored in the 2020 awards cycle.
